- PROTESTS:** Leave your eventual protests within 30 minutes after the end of the finished race.
- LICENCE:** A one time licence for the event can be purchased upon arrival. SMA issue these, car 200 SEK, MC 250 SEK. Several drivers can share the same vehicle, but each driver must purchase a licence in order to be insured.
- ENVIRONMENT:** Environment mats shall always be used at your service stops. Green fuel is recommended, such as Aspen plus or racing 102 octane, E85 etc. Teams who leaves rubbish in the paddocks afterwards will be fined.
- CATERING:** Available in the area
- CAMPING:** You can camp in the depot

National competition rules for One Mile

- Only the driver allowed in the car on the Speed record track. No passengers, for safety measures.
- Tyres, you can use what you like, but they must be in good condition. The arrangers test crew shall inspect and mark ALL tyres to be used at the testing station upon arrival. The same type of tyres to be used on all axles.
- The vehicle must be washed and clean, our decals need to be easily stuck on, and there is a lot of press/media present. Vehicles who don't heed this rule shall not be allowed to start.
- Obligatory dead mans grip on mc, quad, scooter, moped.
- Start numbers are provided on site by the arranger, and shall mounted on the cars side back side windows or front door, so the driver needs to ensure an even area on each side of Car 500x500 , MC/snowmobile/quad/moped 200x200 mm to mount the start numbers on. (so the arranger and public can easily read it)
- Racing leathers or similar obligatory on MC, Snow scooter or Moped and Quad. Also Helmet, Back protector, leather gloves or similar.
- Safety equipment in car: Helmet, gloves, flameproof underclothes are the minimum demand.
- Environment mat is a demand, and take care with antifreeze and oil because it is a sensitive nature environment. Any spills shall be reported directly to the race organizers
- Handling runs are to be with care, and the speed to be increased carefully in steps in order to get the feeling of the vehicle and check the tyres / vehicle for extra safety.

-
- Safety classing the car: Without roll cage – 250 kmh max average speed. Over 250 km average speed – a proper recommended roll cage/bar with supports, 4 point seatbelt and racing seat and prop shaft protection ring. Runs over 300kmh we recommend a brake chute. Open/Cabriolet car must at least have a roll bar with supports and hand protection. Email us info@Landracing.se regarding safety questions during your build or before the race, so we can advise how your vehicle can pass the inspection.
 - If there isn't a class for you or for other questions contact info@Landracing.se
 - Time taking is done by with photocells, the time is measured when the vehicle passes the photocells. Top Speed is measured at 1609 meters and 40 meters backwards.
 - Ambulance and safety is on place.
 - www.guinnessworldrecords.com can attend but the driver has to contact them, this must be done at least 2 months before the record attempt, preferably 3 months, and they only recognize the fastest MC , Car , etc – (they do not recognize class wins, only absolute fastest car, mc, etc)
 - All photographing and filming for PRIVATE use is allowed, press cards are necessary for the Media.
 - Entry Saturday 100 SEK.
Under 15 go in free, with a paying adult in their company
 - Otherwise we hope you have a pleasant weekend sunshine!
